Short Description

- Made from a tough rubber compound
- Raised knob solid top surface that enhances traction
- Tested to withstand temperatures to -40 Fahrenheit (approximately - 40° Celsius)
- Low profile allows for easy on/off cart traffic
- High quality walk-in deep freezer mat

Description

The NoTrax Deep Freeze Mat™ 765 provides the ultimate solution for keeping your freezer floor clean, safe, and slip-free. This innovative freezer mat is engineered to withstand extreme cold temperatures while providing exceptional performance and durability.

Its unique anti-slip rubber construction offers superior resilience and flexibility, ensuring it remains intact and efficient even in freezing conditions as low as negative 40 degrees Fahrenheit. This freezer mat effectively prevents moisture, ice, and spills from accumulating on the floor, providing a clean and dry walk space. Its low profile design can withstand heavy foot traffic and cart loads, while its textured surface provides excellent traction, enhancing workplace safety by reducing the risk of accidents caused by slippery surfaces. The mat also insulates against cold floors to keep feet and legs more comfortable when working in freezer environments.

Because the Nonslip Deep Freeze Mat 765 is resistant to stains, chemicals, and odors, regular cleaning and maintenance are easy. Simply wipe or mop the mat to ensure a hygienic environment within your freezer.

This freezer mat is available in various sizes to suit your specific needs. Whether you require a small mat for personal freezers or coolers, or larger freezer floor mats for walk-ins, meat lockers, and specialty freezers in commercial facilities, we have you covered. The versatile design allows for easy installation and customization, ensuring a perfect fit for any freezer space.

The Deep Freeze Mat™ is the only rubber freezer mat specifically formulated to perform in deep freeze environments. Tested to withstand temperatures to -40 degrees Fahrenheit, this anti-slip mat for walk in freezer features a raised knob solid top surface to enhance traction, and is designed for use in meat lockers,

walk-in freezers, and other specialty freezer applications. Manufactured with Microstop™ anti-microbial rubber compound this long lasting durable walk in freezer mat is available in a variety of sizes as well as cut your own length.

Specifications

Model No	765
Brand	NoTrax
Available Colors	Black
Overall Thickness	3/8
Custom Lengths	2', 3' and 4' widths (up to 60' long)
Standard sizes	2'x 5'; 2'x 8'; 3'x 5'; 3'x 8'; 4'x 5'; 4'x 8'
Group	Ergonomic, Anti-fatigue & Safety Matting
Environment	Wet/Dry and Oily Areas
Recommended Use	Restaurant kitchens, food prep, food processing environments
Special Remarks	The only rubber mat specifically formulated to perform in deep freeze environments.Withstand cold temperatures, anti-slip surface, low profile for cart traffic
Surface Detail	Industrial Bubble Pattern
Process	Molding
Weight Lbs/sqft	1.6
Fire Rating US	Pass
REACH Compliant	Reach compliant (Registration, Evaluation, Authorization and Restriction of Chemicals).
Anti-Fatigue Rating	Good
Slip Resistance Rating	Best
Wear Resistance Rating	Better
Comfort Rating	Good
Grease Resistance Rating	Good
