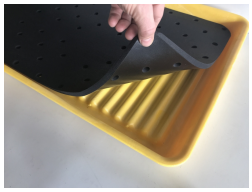
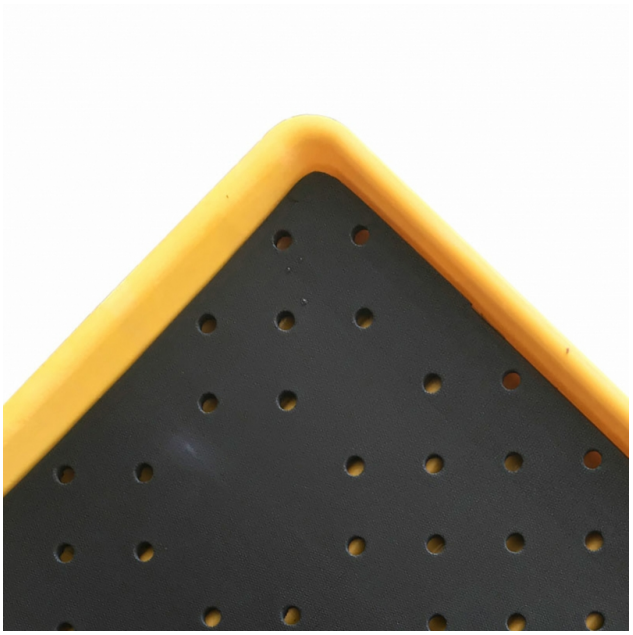
Product Images





Short Description

- Boot Wash Station helps slow the spread of contaminants
- Overall tray thickness is 2.5" high and holds 2.5 quarts of sanitizing solution
- HDPE tray resists most chemicals and all variations in temperatures
- Rigid tray edges makes for easy emptying
- Clean and disinfect bottom of shoes
- Replacement inserts available
- 100% USA Made

Description

The Boot Wash Station cleans bottom of boots by stepping into the tray, the sanitizing solution is pushed into the grooves of the footwear and around the bottom of the soles for a thorough cleaning and disinfecting. Step off onto our 048 Grip Sorb™ mat for a quick dry. This boot decontamination foot bath mat helps limit the spread of contaminants. This boot wash station is 100% Made in the USA.
